

Index

Chapter 1 | Introduction to Ayurveda

1.1	Chapter Objectives	15
1.2	Introduction	15
1.3	Definition of Ayurveda	15
1.4	Definition of Life	15
1.5	Definition of health	16
1.6	Aim of Ayurveda	17
1.7	Vedic Origin of Ayurveda	17
1.8	Introduction to the four Veda's and their origin	17
1.9	Goals of life	18
1.10	Satva Atma Shareera (Mind - Soul - Body)	19
1.11	Summary	20
1.12	Assessment Questions	20
1.13	Reference books	20
1.14	Homework	20

Chapter 2 | History of Ayurveda

2.1	Chapter Objectives	21
2.2	Mythological Origin	21
2.3	Initial Ayurveda	21
2.4	The Span of Textual Compilations	21
2.5	Basics about Laghutrayi and Brihatrayi	22
2.6	The Great three:	22
1.	Charaka Samhita	22
2.	Sushruta Samhita	23
3.	Ashtanga Hridaya	23
2.7	The Lesser three:	24
1.	Bhava Prakasha	24
2.	Sharangdhara Samhita	24
3.	Madhava Nidana	24
2.8	Total chapters and eight divisions	24
2.9	Summary	26
2.10	Assessment Questions	26
2.11	Reference books	26
2.22	Homework	26

Chapter 3 | Philosophy of Ayurveda Darshan

3.1	Chapter Objectives	27
3.2	Introduction of Darshana	27
3.3	Types and features of each Darshana	27
3.4	Summary	30
3.5	Assessment Questions	31
3.6	Reference books	31
3.7	Homework	31

Chapter 4 | Basic Principles of Ayurveda

4.1	Chapter Objectives	32
4.2.	Panchamahabhoota	32
a)	Intro. and def. of Bhoota & Mahabhoota	32
b)	Evolution of Panchamahabhoota	32
c)	Atomicity of five elements in each object	34
d)	Elemental theory Ayurveda	34
e)	Causal theory of nine Padartha	34
f)	Practical utility of Panchamahabhoota	35
g)	Panchabhautik Therapy	35
h)	Bhootagni Principle	35
i)	Microcosm – Macrocosm theory	35
4.3	Tridosha	36
a)	Introduction	36
b)	Definition	36
c)	Types and number of Dosha	36
d)	Sites of Origin	36
e)	Qualities and Actions of Tridosha	37
f)	Subdivision of each dosha, their site and functions	38
4.4	Triguna	39
a)	Definition and Importance of Triguna	39
b)	Qualities of each Guna	39
4.5	Triguna relating to the five elements	40
4.6	Relation between Triguna with Tridosha	40
4.7	Effect of Triguna on body	40
4.8	Interrelation of / Dependability of each Guna	40
4.9	Characteristic Features of Triguna	40
4.10	Summary	40
4.11	Assessment Questions	41
4.12	Reference books	41
4.13	Homework	41

Chapter 5 | Imbalance of Tridosha

5.1	Chapter Objectives	42
5.2	Normal and abnormal Dosha	42
5.3	Causes of their variation – vitiation	42
5.4	Symptoms of vitiation	43
5.5	Line of treatment of vitiated dosha	43
5.6	Summary	43
5.7	Assessment Questions	44
5.8	Reference books	44
5.9	Homework	44

Chapter 6 | Prakriti (constitution)

6.1	Chapter Objectives	45
6.2	Physical Prakriti	45
	a) Constitution type	45
	b) Prakriti Table	46
	c) Characteristics of body Constitutions	47
	1. Vata Characters	47
	2. Pitta Characters	47
	3. Kapha Characters	47
	d) Relation between Prakriti and Health	47
6.3	Mental prakriti	47
	a) Types	47
	b) Features	48
	1. Satvik type	48
	2. Rajasik type	48
	3. Tamasik type	48
6.4	Mental Sub dosha	48
	1. Satvik type	49
	2. Rajasik type	49
	3. Tamasik type	49
6.5	Importance of Prakriti examination	50
6.6	Summary	50
6.7	Assessment Questions	50
6.8	Reference books	50
6.9	Homework	50

Chapter 7 | Ritucharya (seasonal regime)

7.1	Chapter Objectives	51
7.2	Six Seasons	51
7.3	Seasons and Taste	53
7.4	Summary	53
7.5	Assessment Questions	53
7.6	Reference books	53
7.7	Homework	53

Chapter 8 | Sadvritta (Code of conduct)

8.1	Chapter Objectives	54
8.2	Introduction	54
8.3	Personal Hygiene	54
8.4	Social Hygiene	54
8.5	Psychic disturbance	55
8.6	Code of conduct for taking diet	55
	a) Vata Pacifying Diet	57
	b) Pitta Pacifying Diet	57
	c) Kapha Pacifying Diet	57
8.7	Code of conduct for natural urges	57
	a) Adharaniya Vega (Non suppressible urges)	58
	b) Dharaneeya Vega (Suppressible urges)	58
8.8	Summary	59
8.9	Assessment Questions	59

8.10	Reference books	59
8.11	Homework	59

Chapter 9 | Agni

9.1	Chapter Objectives	60
9.2	Importance of Agni	60
9.3	Definition of Agni	60
9.4	Types of Agni	60
9.5	Importance of Agni	61
9.6	Role in metabolism	61
9.7	Prakriti and Agni	62
9.8	Functional states of Jatharagni (4 states)	62
9.9	Summary	62
9.10	Assessment Questions	62
9.11	Reference books	62
9.12	Homework	62

Chapter 10 | Ama

10.1	Chapter Objectives	63
10.2	Introduction	63
10.3	Definition of Ama	63
10.5	Properties of Ama	63
10.6	Causes of Ama production	63
10.7	Pathogenicity of Ama	64
10.8	Symptoms of Ama	64
10.9	Symptoms of being Nirama	64
10.10	Saama - Nirama concept	64
	1. Effect on Tridosha	64
	2. Effect on Dhatu, Mala	65
10.11	Clinical importance of Sama and Nirama	65
10.12	Management of Saama dosha, Dhatu, mala	65
10.13	Summary	66
10.14	Assessment Questions	66
10.15	Reference books	66
10.16	Homework	66

Chapter 11 | Dinacharya / Daily Regime

11.1	Chapter Objectives	67
11.2	Introduction	67
11.3	Ideal Daily Routine	67
11.4	Summary	68
11.5	Assessment Questions	68
11.6	Reference books	68

Chapter 12 | Dhatu

12.1	Chapter Objectives	69
12.2	Introduction	69
12.3	Definition of Dhatu	69

12.4	Types of Dhatu	69
12.5	Description of each Dhatu with diseases and treatment	69
12.6	Formation of Dhatus	73
12.7	Effect of Dhatu on each other	73
12.8	Tissue Nourishment Theories:	73
	1. Kshir Dadhi Nyaya (Milk Yoghurt Theory)	73
	2. Kedari Kulya Nyaya (Farm - Drain Theory)	74
	3. Khale Kapot Nyaya (Grain pot - Bird Theory)	74
	4. Ek Kaala Dhatu Poshana (Simultaneous Nourishment Theory)	74
12.9	Function and Quantity of Dhatus	74
12.10	Relation to Tridosha	74
12.11	Factors determining normal state of Dhatus	74
12.12	Summary	75
12.13	Assessment Questions	75
12.14	Reference books	75
12.15	Homework	75

Chapter 13 | Upadhatu

13.1	Chapter Objectives	76
13.2	Definition of Upadhatu	76
13.3	Different between Dhatu and Upadhatu	76
13.4	Their formation form Dhatus	76
13.5	Types of Upadhatu with diseases and treatment	76
	1. Stanya (Breast Milk)	76
	2. Aartava (Menstruation)	76
	3. Kandara (Tendons)	77
	4. Veins / Shiras	77
	5. Twacha / Skin	77
	6. Snayu / Ligaments	77
	7. The Teeth	78
13.6	Summary	78
13.7	Assessment Questions	78
13.8	Reference books	78
13.9	Homework	78

Chapter 14 | Ojas

14.1	Chapter Objectives	79
14.2	Definition of Ojas	79
14.3	Properties Ojas	79
14.4	Types of Ojas	79
14.5	Ojas in abnormal state	79
	1. Visramsa	79
	2. Vyapat	79
	3. Kshaya	79
14.6	Features of Ojas Decline	79
14.7	Factors responsible for decline in Ojas	80
14.8	Factor nourishing Ojas	80
14.9	Relation of Ojas with immunity	80

14.10	Three types of Bala and their features	80
14.11	Summary	80
14.12	Assessment Questions	80
14.13	Reference books	80
14.14	Homework	80

Chapter 15 | Mala

15.1	Chapter Objectives	81
15.2	Definition of Mala	81
15.3	Significance of Mala	81
15.4	Formation of Mala and their volumes	81
15.5	Effect of Agni on Mala	81
15.6	Description with diseases and treatment of Mala	81
	a) Pureesha	81
	b) Mootra	82
	c) Sweda	82
15.7	Summary	82
15.8	Assessment Questions	83
15.9	Reference books	83
15.10	Homework	83

Chapter 16 | Tripods

16.1	Chapter Objectives	84
16.2	Tri Aisahana	84
16.3	Tri Stambha	84
16.4	Tri-Upastambha	85
16.5	Trividh Bala	86
16.6	Trividh Ayatana(The causes of diseases)	86
16.7	Trividh Roga(The diseases)	86
16.8	Trividh Rog Marga(The routes of diseases)	86
16.9	Trividh Bhishaka (Doctor)	87
16.10	Trividh Aushadha ((Medicine)	87
16.11	Summary	87
16.12	Assessment Questions	87
16.13	Reference books	87
16.14	Homework	87

Chapter 17 | Diet / Ahara

17.1	Chapter Objectives	88
17.2	Definition	88
17.3	Ahara Deciding Factors	88
	1. Svabhava – Nature of food	88
	2. Samyoga – Combinations of foods	89
	3. Samskara – Processing	89
	4. Matra – Volume	89
	5. Kala – Time	89
	6. Desha – Place	89
	7. Upayoga Samsthana - Dietetics	89
	8. Upabhokta – The consumer	90

17.4	Ahara for Tridosha Balancing	90
	1. Vata pacifying diet	90
	2. Pitta pacifying diet	90
	3. Kapha pacifying diet	90
17.5	Effect of six tastes on Dosha	90
17.6	Six taste from Panchamahabhoota	91
17.7	Anupana	91
	1. Definition	91
	2. Benefits	91
	3. Contraindications	91
	4. Precautions	91
	5. Variety of Anupana	91
17.8	Summary	92
17.9	Assessment Questions	92
17.10	Reference books	92
17.11	Homework	92

Chapter 18 | Vega

18.1	Chapter Objectives	93
18.2	Introduction and types of Vega	93
18.3	Adharaniya Vega suppression	93
18.4	Pathogenesis of Vega	94
18.5	Dharaneeya Vega	94
18.6	Treatment	95
18.7	Summary	95
18.8	Assessment Questions	95
18.9	Reference books	95
18.10	homework	95

Chapter 19 | Marma

19.1	Chapter objectives	96
19.2	Definition of Marma	96
19.3	Lethal and Therapeutic Marma	96
19.4	Classifications of Marma Points	96
19.5	Anatomical regions of Marma	98
19.6	Marma massage	98
19.7	Steps for Marma massage	98
19.8	Oils for Marma Massage	99
19.9	Application	99
19.10	Importance of Marma in treatment	99
19.11	Summary	99
19.12	Assessment Questions	100
19.13	Reference books	100
19.14	Homework	100

Chapter 20 | Triguna

20.1	Chapter Objectives	101
20.2	Introduction to Triguna and Mind	101
20.3	Triguna relating to The five elements	101

20.4	Relation between Triguna with Tridosha	102
20.5	Effect of Triguna on body	102
20.6	Interrelation of / Dependability of each Guna	102
20.7	Characteristic Features of Triguna	102
20.7	Manasika Prakriti / Psychological constitution	102
20.8	Food and Triguna	103
20.8	Mind	103
20.9	Definition of mind	103
20.10	Derivation of mind	103
20.11	Synonym of mind	103
20.12	Site of mind	103
20.13	Features of mind	104
20.14	Actions of Mind	104
20.15	Guna / Qualities of mind	104
20.16	Introduction to Psychiatry	104
20.17	The mind and treatment of somatic diseases	104
20.18	Causes of Manas Disorders	104
20.19	Symptoms of Manas Disorders	104
20.20	Signs of healthy Manas	105
20.21	Signs of unhealthy Manas	105
20.22	Summary	105
20.23	Assessment Questions	105
20.24	Reference books	105
20.25	Homework	105

Chapter 21 | Dravya Guna

Basics of Ayurvedic pharmacology

21.1	Chapter Objectives	106
21.2	Introduction	106
21.3	Dravyaguna	106
21.4	Rasa (Taste)	108
21.5	Anu-rasa (Secondary Taste)	108
21.6	Guna (Qualities)	108
21.7	Virya (Potency)	110
21.8	Vipaka (After effect)	111
21.9	Pratyayarabdha (Outcome)	111
21.10	Prabhava (Special Activity)	112
21.11	Summary	112
21.12	Assessment Questions	112
21.13	Reference books	112
21.14	Homework	112

Chapter 22 | Bhaishajya Kalpana

Ayurveda Pharmaceuticals

22.1	Chapter objectives	113
22.2	Definition of Bhaishajya Kalpana	113
22.3	Importance of Bhaishajya Kalpana	113
22.4	Panchvidha Kashya Kalpana:	113
	a. Swarasa (Juice)	113
	b. Kalka (Paste)	114

c. Kwatha (Decoction)	114
d. Shita (Cold in fusion)	114
e. Phanta (Hot infusion)	114
22.5 Dosage	114
22.6 Avaleha	115
22.7 Bhasma	116
22.8 Oil / Ghrita	116
22.9 Asava Arishta	117
22.10 Anupana	117
22.11 Summary	117
22.12 Assessment Questions	118
22.13 Reference books	118
22.14 Homework	118

Chapter 23 | Srotas (Channels)

23.1 Chapter Objectives	119
23.2 Definition of Srota	119
23.3 Classification of Srotas	119
23.4 Concept of Srotas Disorders	120
23.5 Internal Srotas	120
1. Prana vaha Srotas	121
2. Anna vaha srotas	124
3. Ambu vaha	125
4. Rasa vaha	126
5. Rakta vaha	131
6. Mamsa vaha	133
7. Meda vaha	133
8. Asthi vaha	136
9. Majja vaha	137
10. Shukravaha	139
11. Mootravaha	142
12. Pureeshvaha	143
13. Sweda Vaha Srotas	145
23.6 Summary	146
23.7 Assessment Questions	146
23.8 Reference books	146
23.9 Homework	146

Chapter 24 | Nidana Panchaka

24.1 Chapter Objectives	147
24.2 Introduction of Nidana Panchak	147
24.3 Importance of Nidana Panchak	147
24.4 Roga Pareeksha / Disease Assessment:	147
a) Nidana	147
b) Poorvaroopo	148
c) Rupa	149
d) Upshaya	149
e) Samprapati (shad kriya kala)	150
24.5 Shadvidha Kriyakala / Six opportunities to heal	150
24.6 Classification of diseases	152

24.7 Rogi Pareeksha / Patient examination:	153
a) Trividha Pareeksha	153
b) Ashtavidha Pareeksha	153
c) Dashavidha Pareeksha	156
24.8 Summary	158
24.9 Assessment Questions	158
24.10 Reference Books	158
24.11 Homework	158

Chapter 25 | Panchakarma

25.1 Chapter Objectives	160
25.2 Introduction	160
25.3 Classification	160
25.4 Purva karma (Preliminary procedure)	160
25.5 Snehana Therapy:	161
a) Definition and importance	161
b) Sources of Snehana drugs	161
c) Properties of Snehana drugs	161
d) Indication	161
e) Contra-indication	162
f) Types of oleation	162
25.6 External oleation:	162
a) Abhyanga	162
b) Shiro-abhyanga	165
c) Shiro-dhara	165
d) Shiro-pichu	166
e) Shiro-basti	166
f) Kati basti	167
g) Greeva basti	168
h) Janu basti	168
i) Akshitarpan	169
j) Karanpuran	169
k) Avgahan	170
l) Pizichil	170
m) Puchudharana	170
n) Gandusha and Kawala / Gargles	170
25.7 Internal oleation:	170
a) Duration of oleation	170
b) Determination of dose and dose schedule	171
c) Administration of internal oleation	171
d) Signs of proper Snehana	172
e) Signs of inadequate Snehana	172
f) Signs of excessive Snehana	172
g) Complication of Snehana	172
h) Precautions	172
25.8 Swedana Therapy:	173
a) Definition and Importance	173
b) Indication	173
c) Contra-indications	173
d) Properties of Swedana drugs	173
e) Classification of Swedana	173

27.10	Reference books	204
27.11	Homework	204

Chapter 28 | Stri Roga / Gynaecology

28.1	Chapter Objectives	205
28.2	Anatomy and physiology of female reproductive system	205
28.3	Yoni Vyapat / Gyaenecologic disorders	206
28.4	General Treatment Principles	206
28.5	Discussion on common diseases	207
	a) Amenorrhea	207
	b) Leucorrhoea	207
	c) Polymenorrhoea	207
	d) Recurrent abortions	208
	e) Infertility	208
	f) Dysmenorrhoea	208
	g) Menopause	209
	h) Cyst and Neoplasm of Breast	210
28.6	Summary	210
28.7	Assessment Questions	211
28.8	Reference books	211
28.9	Homework	211

Chapter 29 Prasooti Tantra / Obstetrics

29.1	Chapter Objectives	212
29.2	Introduction	212
29.3	Aartava / Menstruation	212
29.4	Aartava Abnormalities	212
29.5	Menopause	212
29.6	Conception / Garbha Dharana	213
29.7	Signs of Pregnancy	213
29.8	Embryology	213
29.9	Origin of Embryo Parts	213
29.10	Month-wise regimen	214
29.11	Fetal Nourishment	215
29.12	A concept less explored / Pumsawana Karma	215
29.13	Diseases of Pregnant female / Garbhini	216
29.14	Galactogogues	216
29.15	Care of the Pregnant female	216
29.16	Summary	216
29.17	Assessment Questions	217
29.18	Reference books	217
29.19	Homework	217

Chapter 30 | Kaumara Bhritya / Child care

30.1	Chapter Objectives	218
30.2	Introduction	218
30.3	Definition	219
30.4	Diet for a new born	219

	a) Formation of Mothers milk	219
	b) Concept of Wet Nurse	219
	c) Method of Breastfeeding	219
	d) States unfit for feeding	219
	e) Characteristics of Normal Breast Milk	219
	f) Causes for the cessation of breast milk	219
	g) Treatment for cessation of breast milk	220
	h) Excess of Breast Milk	220
	i) Substitute for Mothers Milk	220
	j) Weaning Period	220
	k) Abnormalities of Breast Milk	220
	l) Classification of Disorders of Milk	220
	m) Management of Diseases caused by impure Breast Milk	220
30.5	Dentition	220
30.6	Disorders of Neonatal period	220
	a) Foetal distress	220
	b) Ulvaka	221
	c) Upasheershaka – Cephalo haematoma	221
	d) Kamala / Neonatal jaundice	221
	e) Nabhi vikara / Umbilical disorders	221
	f) Chardi / Vomiting	221
	g) Atisara / Infantile Diarrhoea	221
	h) Rodana / Cry	221
	i) Congenital anomalies	221
30.7	General Paediatric Diseases	221
	a) Bala Jvara / Fevers	221
	b) Balatisara / Diarrhoea	222
	c) Bala Raktatisara / Bloodstained diarrhoea	222
	d) Bala Jvaratisara / Diarrhoea with fever	222
	e) Bala Pravahika / Dysentery	222
	f) Bala Malavarodha / Constipation	222
	g) Bala Kasa, Shvasa / Cough and Dyspnoea	222
	h) Bala Udara Shoola / Abdominal Colic	222
	i) Phakka Roga / Rickets	223
	j) Parigarbhika / Feeding during Pregnancy	223
	k) SheetaPitta / Urticaria	223
30.8	Nutritional Disorders	223
	a) Wasting	223
	b) Pandu / Anaemia	223
	c) Obesity	223
30.9	Growth and Development Disorders	224
30.10	Child Care Problems	224
	a) Improper mental development	224
	b) Hygiene Issues	224
30.11	Summary	224
30.12	Assessment Questions	224
30.13	Reference books	224
30.14	Homework	224

Chapter 31 | Vajikarana

31.1	Chapter objectives	225
31.2	Introduction	225
31.3	Definition	225
31.4	Importance of Vajikarana	225
31.5	The best Aphrodisiacs	226
31.6	Indications and Contraindications	226
31.7	Important indications for Vajikarana:	226
	a) Premature Ejaculation	226
	b) Erectile Dysfunction	226
	c) Infertility / Sterility	226
	d) Spermatorrhoea (nocturnal emissions)	227
	e) Impotency	227
31.8.	Summary	227
31.9	Assessment Questions	227
31.10	Reference books	227
